Using FVSU “Wildcat” Email

Welcome to FVSU “Wildcat” Email – a new email service offered by Fort Valley State University and the Office of Information Technology to FVSU students and alumni.

This new email service – [http://wildcatmail.fvsu.edu/](http://wildcatmail.fvsu.edu/) – provides FVSU students and alumni with a free 10GB lifetime email account, 25GB online storage, online collaboration tools, photo sharing, mobile alerts, instant messaging tools and much more! It’s also powered by Microsoft Live@edu so you’ll also get access to Office Web Applications built with the same Office interface used by more than 500 million people worldwide. Before you log in, click on each of the “Features” icons for a brief overview of what’s available and to get tips and tricks for getting the most out of your Live@edu experience.

Microsoft Outlook Live is an optimized & professional email experience, similar to what you may use in your future workplace. With Microsoft Office Web Apps, you get the benefits of working with online documents using the familiar Microsoft Office experience. Windows Live SkyDrive lets you store documents and photos online so you can access them from any computer and share with others. Using Windows Live Messenger, you can enjoy real-time chat, look at photos together, set up group chats and do full-screen video calling. Using Windows Live Photo Gallery, you can store up to 1,000 photos and share them with friends and family. Windows Live Mobile makes Live@edu services available on your mobile phone so even when you’re on the move, you’re connected.
Logging In and Setting Security
From the FVSU “Wildcat” Email web site - http://wildcatmail.fvsu.edu/ - log in using the “Click Here To Access Email” link just below the FVSU Wildcat logo. The Outlook Live Sign In page will display.

Enter your FVSU Wildcat student email address as shown in Banner Web on the Personal page – this is your new “@wildcat.fvsu.edu” address. Your initial password is “PassMMDDYY” where MMDDYY is your birthdate. You must change this default password once you get logged in.

First time logging in?? Set up your personal Security Question/Security Answer (SQ/SA) as soon as you log in --- that way, if you forget your password, you can reset it yourself!! When you get logged in, just click the ‘More’ (in top menu) → ‘@Wildcat’ → ‘Password Security’ links to get the Account Overview page – the security question (default secret question) is in the Password Reset section.

Forgot your password?? Click the ‘Forgot your password’ link on the Sign-In page – you may have to click the “Sign in with a different Windows Live ID” link first in order to see “Forgot your password” link. This link is also available from the FVSU “Wildcat” Email web site - http://wildcatmail.fvsu.edu/. That’s it!!
